Anti-microbial / Anti-bacterial covering

SPECIFICATION

Fabric choice	<p>Our standard fabric range is shown as previous page. This is a selection of available coverings - our seat-pads can be upholstered in an almost unlimited choice of fabrics, vinyls and leathers, subject to some exceptions.</p> <p>We are able to use almost any fabric or covering material. If your choice is not shown, or you would like help with your selection, please contact the sales team.</p>
Flammability	<p>All standard fabrics meet BS EN 1021-1 +2 when used on our seat-pads. Fabrics with the flame symbol  are supplied to meet Crib 5 as standard, when used with our furniture.</p> <p>Many of the fabrics without flame symbol can be treated to Crib 5 if required, for an extra charge; please contact us to discuss options.</p> <p>All Foam fillings are CMHR, and pass BS 5852. Please ensure that your choice meets your project's flammability requirements.</p>
Treatments	<p> The cross symbol indicates that the covering is anti-microbial/anti-bacterial and therefore suited to healthcare use. Many fabrics can be treated with anti-stain & anti-microbial/anti-bacterial finishes; please contact us for details and prices.</p>
Suitability	<p>Not every fabric is suitable for every product. Coverings marked* have exceptions. Please contact the sales team to ensure your selection is suitable.</p>
