

Sustainable and Ethical Timber Procurement Policy

James Burleigh Limited is committed to complying with all relevant legislation and to the responsible legal procurement of forest products. We have a procurement policy to purchase FSC® certified timber wherever possible and purchase only from companies we can ensure exercise due diligence following the law of the UK Timber regulation (UKTR).

FSC® Chain of Custody is a necessary criterion when selecting new suppliers and proof of certification is required, along with recommendations from known and trusted sources. FSC delves deeper than just the timber and also audits companies for the protection of workers rights. This along with our own due diligence can ensure there is no slavery being used along the supply line.

New suppliers are evaluated on their Sustainability, Social and Human Resources aspects, and only those meeting our criteria are selected.

We operate a supplier problem log and all non conformities are investigated. Where continuous problems occur suppliers are visited and audited by us. We may suspend purchasing until such time that all non conformities are corrected.
